Dear Marty,

During the course of business, its not often you come across a vendor who thinks and acts like a business partner. I can tell you that is very rare, and more importantly, very valuable!

For nearly 20 years, you have helped me grow my business and provided me no-nonsense advice. I can attest that you have been critical to my business growth and success.

Your agency provides timely responses to our needs, and you have personally helped me navigate the waters or benefit planning and "exploit" my best opportunities. I can't ask for more than that.

Thanks again for all your help always. I really value your advice and commitment to O&S, and to our employees.

Sincerely,

Scott Onasch  
President
