RE: Letter of Recommendation

To Whom It May Concern:

Corporate Strategies has been providing our company with insurance and financial services for the past 15 years.

Sarena and her staff have always been very helpful and quick to respond to anything that we need to address. Our company has implemented many positive and money-savings ideas and programs that Corporate Strategies has suggested. In particular, that Sarena has been able to find.

It is a nice feeling to know we have a broker looking out for our company's best interest and I highly recommend their services. Without Sarena, I am not sure we would continue to utilize a broker service. Her personal level of involvement has shown time and time again that she and the team have our best interest in mind.

Sincerely,

Stacie Soto
